

Backyard ADVENTURES®
Expedition Series Catalog

WELCOME TO BACKYARD ADVENTURES

Our Expedition series is the most affordable family of top-quality play sets available. The Expedition Series is loaded with valuable features and is designed for children of all ages.

- Pre-packaged kits for easy design
- Unique options at great prices
- Deck height 5'
- Swing height 7 ½'
- Slide Length 10'

Each thoughtfully-designed play set is carefully crafted with your child's playtime in mind. From swings and slides, to rock walls, picnic tables, forts, and more, your child will find a variety of fun activities right in the safety of your own backyard!

Expedition play sets are priced similarly to the "mass produced" sets you might find at big box, home improvement, and toy stores; but with a number of distinct advantages over those budget-priced sets:

Materials: You won't find any pine or treated woods here – only strong, durable, beautiful Cedar.

Installation: Expedition play sets are conveniently boxed for do-it-yourself assembly, or for a reasonable price your local Backyard Adventures dealer can install it for you!

Expertise: Retail associates at home improvement stores aren't always trained to answer questions about their lines of play sets, but your local Backyard Adventures dealer will work closely with you to help you choose the right spot in your yard, discuss ground cover options, and select the right play set for your family and budget.

Warranty: Put our warranty against any other similarly-constructed play set and you'll come away with the peace of mind that your investment is backed by one of the most experienced manufacturers in the industry!

NEW FEATURES

Improved Swing Beam

- Adjustable Legs
- Stronger Hardware
- 2 and 1 Three Position Setup

The new Expedition Single Beam has been completely redesigned for improved strength and stability. The 2 and 1 position setup makes it safer for children to enjoy different swing accessories with more space between each swing. The longer single beam legs and heavier duty hardware add increased stability to the swing beam and the entire fort structure.

Additionally, the new single beams are adjustable in height for un-level backyards, making this our most flexible Expedition swing design ever!

We offer many other swing accessories that can be added to your Expedition play set including gliders, infant swings, and toddler buckets. Talk to your local dealer to learn more about our improved Expedition Series.

Ladder Hand Rails*

We've added powder-coated steel handrails to our Expedition deck ladders, making them even safer. Your child will feel safe and secure climbing into their new fort with our flat steps and handrails.

*Not available on Avalanche

Backyard ADVENTURES
your backyard...their adventure
