Explorer Highlights

The Explorer Series consists of two of our most popular play set designs: Magellan and Mountaineer. Like our premium Treehouse and Peak Series play sets, we have both a vertical leg unit, the Magellan, and an angled leg unit, the Mountaineer. You will notice we have included some of the most popular play accessories as part of the base fort designs to ensure you get the most value for your investment.

- Modular design
- High quality features
- Vertical leg and angled leg construction
- Deck heights 5' – 6'
- Swing heights 8' – 9'
- Slide lengths 10' – 12'

We've also borrowed some vital safety features from our premium play sets - notably, the steel strip on swing beams, heavy ductile swing hangers, thick gauge chains, and flat-step ladders. Each feature adds even more value to an already solid design. Explorer play systems are crafted with the perfect balance between price and quality. Our commitment to total play value ensures your Explorer play set will exceed your performance expectations. All Explorer products come standard with our Limited Life-Time Warranty. Explorer play sets are designed for children of all ages, and provide the ultimate combination of quality, affordability, and of course, fun.
